Hi Lisa,

I want to check with you to see if you have an agenda for tomorrow's meeting.

Thank you,
Lijin

I think you should go with the norm. We just need to know because after the holidays, the number of hearings our attorneys have to attend is to the max. So if we DO need them there, then at least we have a fighting chance to give them notice. If you have counsel there and we cannot have someone present, we usually have to reschedule meetings.

As of right now, the afternoon of the 22nd, beginning at 130 is open. At most, we would probably need an hour, but it really will depend on the agenda, which could help us with timing.

We can make Wed afternoon work. What time will work? Yay!

Also, the City did not plan to have counsel present, but if AQMD thinks it would be helpful to have counsel present, we can make it happen as well.

Good morning Lisa:

It appears staff is still waiting on file(s) from ESA regarding this project; since they are not sure when they will receive them, it will be prudent to hold off on meeting until the week of January 21st. This will ensure that staff has a chance to receive the files, look everything over, then formulate, if needed, whatever questions they may have.

Also, I would need to know if you will be having counsel present for this meeting so that we can coordinate with our own staff internally and give them enough time to attend the meeting.

Thanks!
Celia

Let me take a step back so that I can better see what we need in terms of our own attendance. Will you be having legal counsel present? If so, I would need to coordinate that first. In terms of availability as of right now, as I mentioned before, there is absolutely no way we can have this meeting on Tuesday as Jillian is not available at all. On Wednesday, there is no morning availability, but it might work if Heidi is available, via phone, in the afternoon—however, we would have to go from either 3-4 or 330-430, but no later than that.

Also, to stay on task and help the meeting along, having an agenda would also help us determine if other people on staff might be beneficial to have attend the meeting. If there is any way we could get even a basic agenda, we would appreciate it.

If the above times don't work for Heidi, unfortunately, we would need to push it until the week of the 21st, but let's see where we can get for Wednesday afternoon, at least?

Celia,

I had everyone else, but I finally connected with Heidi who is key. I regret that she is out of the country on Friday and did not realize that she will be on a plane. She provided her availability for next week, which is Tu – 8-10, and 2-5 and Wed – 8-11 (in person), and 3-5:30 by phone. We can also shoot for the following week, but worry that may not be enough time for Lijin and Jillian in their review process.

Friday looks like it will work...would 10am be ok with you or do you an afternoon appointment?

Also, it would help for us to know how many people are attending so that we can get the best sized room possible.

Thanks!

Celia

Importance: High

Good morning Lisa & Happy New Year!

Unfortunately, Friday is our board meeting, so it's a bit difficult to get conference reserved on that day. Can you get me some dates/times for next week when you have availability? Also, can you let me know how many people would be attending in person so I can start looking into reserving a meeting space?

Thank you!

Celia

Subject: Technical Data Request: Inglewood Basketball and Entertainment Center Project

Dear Ms. Wilcox,

South Coast AQMD staff is in the process of reviewing the Draft Environmental Impact Report (Draft EIR) for the Proposed Inglewood Basketball and Entertainment Center Project (South Coast AQMD Control Number: LAC191227-10). The public commenting period is from 12/27/19 – 02/10/20.

Upon review of the files available on the Proposed Project's website as a part of the public review period, I was able to access Appendix D: Air Quality, which includes PDF versions of the CalEEMod, AERMOD, Health Risk Assessment, CMAQ and BenMAP-CE output files for the Proposed Project. Please provide an electronic copy of the live modeling files that were used to generate these output files (e.g., live input files), and any additional emission calculation spreadsheets used to quantify the air quality impacts, including health risk, from construction and/or operation of the Proposed Project.

You may burn the data onto a CD and send it to South Coast AQMD Attn: CEQA-Intergovernmental Review, to the address in my signature below. Or, you may send the above-mentioned documents via a Dropbox link in which they may be accessed and downloaded by South Coast AQMD staff **no later than January 9th, 2020**. For downloading purposes, please add Ms. Celia Diamond, at cdiamond@aqmd.gov, as our contact to access the Dropbox link.

Without all files and supporting documentation, South Coast AQMD staff will be unable to complete a review of the air quality analyses in a timely manner. Any delays in providing all supporting documentation will require additional time for review beyond the end of the comment period.

Thank you,

Alina Mullins
