Good afternoon Harry,

I'm following up with you on the message below. Please advise which of the times listed work best for you and your team. Considering the magnitude of the work outlined within the city, I want to ensure we're aligning efforts to meet timelines as best as possible.

Thank you.

Hi Christian. I spoke with our staff and I think it would be best to schedule an in person meeting here in 2 to 3 weeks. Can you send me a few proposed dates so I can schedule. Thanks.

Good morning Harry,

I appreciate your time on the phone this morning. As discussed, the points below were brought to my attention and I want to ensure the City of Inglewood and SCE are coordinating to meet electric infrastructure needs and timelines.

*Steve Ballmer, owners of the Clippers who is building the arena in Inglewood also announced this week that he is committed to the following as an agreement with CARB:

1) Installing 330 EV chargers in/within the Clippers Arena

- 2) Installing 1,000+ public EV chargers throughout the City of Inglewood
- 3) Two full size EV buses for the City of Inglewood
- 4) Adding 10 EVs to City's muni fleet
- 5) Planting of 1,000 trees

These chargers do not include those that are being installed by other private residential developers. It is estimated that Inglewood will get 3,000+ new housing units within the next 18 months to 2 years.

You mentioned you would connect Louis Atwell, Peter, you and I so we can schedule some time to discuss these plans.

Thank you.
