Hi Lisa,

Not sure if you remember that we are closed on Mondays. I am looping in Jillian in case you want to talk again.

Thank you,
Lijin

Follow-up Technical Data Request

Good afternoon Ms. Wilcox,

I am confirming that on 01/03/2020, in response to our request from 01/02/2020, South Coast AQMD staff received a USB drive containing the following technical data: "CO Hotspot", "Construction", "D23 HIA", "GHG Files" and "Operations". South Coast AQMD staff appreciates your timely response to the original data request.

Upon review of the files sent to South Coast AQMD as a part of the original data request, we found that the file labeled "CO Hotspot" on the USB drive redirects to a shortcut, which cannot be accessed. Additionally, it did not appear that the CMAQ files, which are discussed in Chapter 3.2. Air Quality and Appendix D: Air Quality of the Draft EIR, were included on the USB drive.

Please provide an electronic copy of the live CO Hotspot and CMAQ files, and any additional emission calculation spreadsheets, that were used to quantify the air quality impacts, including the health impact analysis, from construction and/or operation of the Proposed Project.

You may burn the data onto a CD and send it to South Coast AQMD Attn: CEQA-Intergovernmental Review, to the address in my signature below. Or, you may send the above-mentioned documents via a Dropbox link in which they may be accessed and downloaded by South Coast AQMD staff **as soon as possible**. For downloading purposes, please add Ms. Celia Diamond, at cdiamond@aqmd.gov, as our contact to access the Dropbox link.

Without all files and supporting documentation, South Coast AQMD staff will be unable to complete a review of the air quality analyses in a timely manner. Any delays in providing all supporting documentation will require additional time for review beyond the end of the comment period.

Thank you,

Alina Mullins

Subject: Technical Data Request: Inglewood Basketball and Entertainment Center Project

Dear Ms. Wilcox,

South Coast AQMD staff is in the process of reviewing the Draft Environmental Impact Report (Draft EIR) for the Proposed Inglewood Basketball and Entertainment Center Project (South Coast AQMD Control Number: LAC191227-10). The public commenting period is from 12/27/19 – 02/10/20.

Upon review of the files available on the Proposed Project's website as a part of the public review period, I was able to access Appendix D: Air Quality, which includes PDF versions of the CalEEMod, AERMOD, Health Risk Assessment, CMAQ and BenMAP-CE output files for the Proposed Project. Please provide an electronic copy of the live modeling files that were used to generate these output files (e.g., live input files), and any additional emission calculation spreadsheets used to quantify the air quality impacts, including health risk, from construction and/or operation of the Proposed Project.

You may burn the data onto a CD and send it to South Coast AQMD Attn: CEQA-Intergovernmental Review, to the address in my signature below. Or, you may send the above-mentioned documents via a Dropbox link in which they may be accessed and downloaded by South Coast AQMD staff **no later than January 9th, 2020**. For downloading purposes, please add Ms. Celia Diamond, at cdiamond@aqmd.gov, as our contact to access the Dropbox link.

Without all files and supporting documentation, South Coast AQMD staff will be unable to complete a review of the air quality analyses in a timely manner. Any delays in providing all supporting documentation will require additional time for review beyond the end of the comment period.

Thank you,

Alina Mullins
