

# Sports and Entertainment Complex Design Guidelines and Infrastructure Plan (the “SEC Development Guidelines”)

## PART I IMPLEMENTATION AND ADMINISTRATION

### Section 1. Introduction

The Sports and Entertainment Complex Design Guidelines and Infrastructure Plan (the “SEC Development Guidelines” ) provide the framework for design review for the development of the Sports and Entertainment Complex, as defined in the Sports and Entertainment Overlay Zone (the “SE Overlay Zone” ), adopted by Ordinance No. \_\_\_\_, and as established in Article 17.5 of the Inglewood Municipal Code, and for review of the infrastructure improvements required to serve the Sports and Entertainment Complex ( “Infrastructure” ), within the SE Overlay Zone and ~~Right-of-way~~ in the vicinity. The Sports and Entertainment Complex and associated Infrastructure shall be developed in accordance with and within the limitations established in these SEC Development Guidelines.

#### 1.1 Organization and Content

The SEC Development Guidelines consists of three Parts.

Part I establishes the processes and procedures to implement the SEC Development Guidelines, including application requirements, review process, and modification processes, applicable to both the SEC Design Guidelines (Part II) and the SEC Infrastructure Plan (Part III).

Part II contains the SEC Design Guidelines. The SEC Design Guidelines establish both required development standards, and other design guidelines and design options for the development of a Sports and Entertainment Complex within the SE Overlay Zone.

Part III contains the SEC Infrastructure Plan. The SEC Infrastructure Plan describes the Infrastructure improvements (wet and dry utilities, fire safety and street right of way improvements required to serve the Sports and Entertainment Complex. No other Infrastructure is required except as described in the SEC Infrastructure Plan.

## 1.2 Applicability

The SE Overlay Zone establishes particular controls that apply to the Spots and Entertainment Complex (Project), in lieu of corresponding or conflicting provisions of the Planning and Zoning Code. The SEC Development Guidelines replace and supersede any corresponding or conflicting provisions of the IMC or City of Inglewood Development Standards and Guidelines or any other corresponding or conflicting design, development or infrastructure standards adopted by the City of Inglewood. In the case of a conflict between the applicable rules governing development in the Inglewood Municipal Code and the spirit, intent, or requirements of the SE Overlay Zone or the SEC Development Guidelines, the SE Overlay Zone and the SEC Development Guidelines shall control. In the event of a conflict between the SE Overlay Zone and the SEC Development Guidelines, the SEC Development Guidelines shall control. In the case of regulations for which the Design Guidelines are silent, the IMC regulations shall apply.

The SEC Development Guidelines are to be read and applied in conjunction with and implement the Project Approvals (as defined in the Development Agreement By and Between The City of Inglewood and Murphy's Bowl LLC, adopted by Ordinance No.           , the "Development Agreement"), including the SE Overlay Zone and the Basic Site Plan Drawings for the Sports and Entertainment Complex ( "Basic Site Plan Drawings" ), attached as Attachment 6 to the Disposition and Development Agreement ( "DDA" ), approved pursuant to Resolution No.           . The Project Approvals, including the applicable provisions of the Mitigation Monitoring and Reporting Plan (the "IBEC MMRP" ), adopted as part of the Project Approvals, control over conflicting provisions in the SEC Development Guidelines.

### 1.3 Interpretation

References herein to the Code or Planning and Zoning Code include the controls established under the SE Overlay Zone. The SEC Development Guidelines implement those controls with more detailed design standards and guidelines.

The Basic Site Plan Drawings for the Sports and Entertainment Complex ( “Basic Site Plan Drawings” ), attached as Attachment 6 to the Disposition and Development Agreement ( “DDA” ), approved pursuant to Resolution No.        were prepared by the Developer and approved by the City with the DDA. The City has determined that the Basic Site Plan Drawings conform to the requirements of the Project Approvals, including the SEC Development Guidelines.

Where noted, graphics, figures, and photographs provided in this document are conceptual and should be considered guidance to meet the intent of the SEC Development Guidelines. As the design process is iterative, changing and complex by nature, the guideline drawings leave room for necessary architectural creativity, flexibility and design evolution. This flexibility is structured, but not prescribed. Accordingly, actual design of the Sports and Entertainment Complex building/structures, and all supplementary treatments may be different from the images provided in the SEC Development Guidelines where not materially inconsistent with the Project Approvals, the Basic Site Plan Drawings, the SEC Development Guidelines or previously obtained Subsequent Approvals (as defined the Development Agreement). Variations of specific design conditions or features, where proposed by Developer, may be considered where they provide an equal or higher level of design quality as determined by the Economic and Community Development Director or Public Works Department Direct, as applicable.

Required standards in the SEC Development Guidelines are preceded by the words such as "must" "shall" or identified as "prohibited". SEC Development that are more subjective, and set forth general design intent, design expectations, and are considered to be generally preferred, encouraged or discouraged features, are preceded by the words such as "should" "encouraged", "preferred", "recommended", or "appropriate". Inclusion in these elements in the design is considered voluntary. The design should consider such guidelines in good faith, recognizing that achieving

consistency with many (though not all) such encouraged guidelines may be subjective or subject to external conditions or factors, or may be achieved through a variety of strategies. Items that include one or more criteria or elements that are qualified with the words "discouraged", "inappropriate" or "should not" be included, are acceptable if they are not materially inconsistent with the Project Approvals. Other design elements that are considered to be allowed, but not specifically encouraged or discouraged, are preceded by the word "may" or identified as "allowed" or "allowable". Accordingly, specific treatments, materials, or design details may vary from the SEC Development Guidelines where the standards of the SE Overlay Zone and the intent of the SEC Development Guidelines are met. Design options have been provided to allow for a range of solutions that meet the larger vision of the Project and should be used as reference for the design intent specified in the caption or section.

#### 1.4 Consultation

During the preparation of any materials to be submitted to the City under these SEC Development Guidelines as set forth below, the City and Developer shall, at the request of and as deemed necessary by the City, hold regular progress meetings to coordinate the preparation of, submission to, and review of the application by the City. The City and Developer shall communicate and consult informally as frequently as is necessary to ensure that the formal submittal of any application to the City can receive prompt and speedy consideration.
