

Continued from page 1: Mayor

Square Garden Co. regarding our new arena."

MSG owners have spent millions in an effort to block the Clippers from building a state of art 18,000 seat sports and entertainment complex down the street from the Forum at 102nd St. and Prairie Ave.

With SoFi Stadium opening for business this year and the Clippers Arena targeted to open for 2024, there would be little chance that all three venues could be economically viable.

The Clippers intend to also move their entire corporate offices from downtown Los Angeles to Inglewood.

As purchase of the Forum continues to gain traction, Inglewood residents are interested as to what will happen thereafter.

Reports speculate that the Forum would continue doing business as usual until the Clippers Arena is complete and cease operation as a concert venue afterwards. The Forum, where the Lakers and Kings hockey team played for years was purchased by MSG from Faithful Central Bible Church and then invested an estimated \$100 million in renovation.

"My intent is to have maximum opportunities for residents of Inglewood with all development projects if this (purchase) is consummated," Butts told Inglewood Today.

Mayor Butts also stated this support of Ballmer.

"I stand solidly behind Steve Ballmer of the Clippers who have stood shoulder to shoulder with the City to may this a reality."

NOTICE OF AVAILABILITY OF A DRAFT ENVIRONMENTAL IMPACT REPORT

Comment Period Extended to March 17, 2020 DATE: March 4, 2020

TO: Responsible Agencies, County Clerk, and Interested Parties

NOTICE IS HEREBY GIVEN that the City of Inglewood (City or Inglewood) has prepared a Draft Environmental Impact Report (EIR) for the Inglewood Basketball and Entertainment Center (Proposed Project). The Draft EIR is being distributed for public review. Pursuant to the California Public Resources Code and the California Environmental Quality Act (CEQA) Guidelines, the City of Inglewood is the Lead Agency for the Proposed Project.

Project Title: Inglewood Basketball and Entertainment Center (IBEC) State Clearinghouse Number: 2018021056

Project Location The Project Site is located in the southwestern portion of the City of Inglewood within Los Angeles County, approximately 10 miles south/southwest of downtown Los Angeles. The Project Site is approximately 28 acres, divided into four sites. The main portion of the Project Site (the Arena Site) is approximately 17 acres and is bounded by West Century Boulevard on the north, South Prairie Avenue on the west, South Doty Avenue on the east, and an imaginary straight line extending east from West 102nd Street to South Doty Avenue on the south. The Project Site includes three additional areas: the West Parking Garage Site on an approximately 5-acre site bounded by West Century Boulevard to the north, hotel and residential uses to the west, South Prairie Avenue to the east, and West 102nd Street to the south; the East Transportation and Hotel Site on an approximately 5-acre site bounded by West Century Boulevard to the north, industrial and commercial uses to the east and west, and West 102nd Street to the south; and the West Relocation Site on an approximately 0.2-acre parcel located at 3842 West 102nd Street, surrounded by vacant land to the west and south and bounded by residential uses to the east. The Project Site is located immediately to the south of the Hollywood Park Specific Plan (HSPSP) area.

The Proposed Project is a Public/Private partnership between Murphy's Bowl LLC, a private applicant, and the City, and would consist of an approximately 915,000-square foot (sf) Arena Structure designed to host the LA Clippers basketball team with up to 18,000 fixed seats for National Basketball Association (NBA) games. The arena could also be configured with up to 500 additional temporary seats for events such as family shows, concerts, conventions and corporate events, and non-LA Clippers sporting events. The Arena Structure would include an approximately 85,000-sf team practice and athletic training facility; approximately 71,000-sf of LA Clippers team office space; and an approximately 25,000 sf sports medicine clinic. Development on the Arena Site would also include an outdoor plaza with approximately 50,000 sf of circulation and gathering space, approximately 48,000 sf of retail/restaurant uses on two levels, up to 15,000 sf of community uses that could accommodate community and youth-oriented programming, and an outdoor stage. A parking garage with 650 spaces would be located immediately south of the Arena Structure within the Arena Site. An existing City of Inglewood groundwater well that is located within the Arena Site would be relocated to the West Relocation Site as part of the Proposed Project.

The LA Clippers currently play their games at the Staples Center in downtown Los Angeles, and the LA Clippers' team offices are currently located at 1212 South Flower Street within two blocks of Staples Center. The team's existing practice and athletic training facilities are located in the Playa Vista neighborhood of Los Angeles, at 6854 South Cotuita Avenue. Upon

completion of the Proposed Project, these uses would be relocated to the Project Site.

Annually, it is expected that the LA Clippers would host up to five preseason games in October; 41 regular season games from October to mid-April; and an average of three playoff games from April to June based on NBA team averages. Other events such as concerts, family shows, conventions and corporate or civic events, and non-LA Clippers sporting events would take place in the Arena throughout the year, with attendance ranging from small events up to 2,000 attendees (average of 300 attendees) in full Arena capacity.

A six-story parking structure containing 3,110 parking spaces would be located within the West Parking Garage Site. A 17-foot-high pedestrian bridge would span South Prairie Avenue, connecting the West Parking Garage to the Arena Site to provide pedestrian access between the second floor of the parking garage to the second floor of the westernmost building in the plaza.

The East Transportation and Hotel Site would include a parking garage (365 spaces) and transportation hub to accommodate private vehicle parking, private action and charter bus staging, and Transportation Network Company staging, pick-up and drop-off. The Proposed Project would also include a limited-service hotel use with up to 150 rooms on an approximately 1.3-acre portion of the East Transportation and Hotel Site. The hotel could include amenities such as a lobby, business center, a fitness room, a guest laundry facility, a market pantry, and/or an outdoor gathering area. The hotel would be approximately six stories, with a maximum height of approximately 190 feet.

Circulation improvements including driveways, signals, a crosswalk, bicycle parking, relocation of bus stops, improved sidewalks, and a 17-foot tall pedestrian bridge crossing South Prairie Avenue and portion of West 102nd Street between South Prairie Avenue and South Doty Avenue would be vacated and included within the Arena Site. Approximately 350 linear feet of West 101st Street would be vacated and developed as part of the West Parking Garage Site. The primary vehicular access to the Project Site would be provided along the major corridors of South Prairie Avenue and West Century Boulevard. Before, during, and after LA Clippers basketball games and other large events, the Proposed Project would provide shuttle service that would connect the Project Site to the Metro Green Line's Hawthorne/Lemay Station and the Metro Crenshaw/LAX Line's La Brea/Borence Station. The shuttle service would drop off and pick up attendees at the proposed shuttle pick-up and drop-off location on the west side of the Arena Site along South Prairie Avenue. The Proposed Project would also include identification and advertising signage, graphic display panels or systems, potential illuminated rooftop signage, and wayfinding signage.

The EIR also considered the potential environmental impacts associated with two Project Variants to circulation infrastructure: the West Century Boulevard Pedestrian Bridge Variant and the Alternate Prairie Access Variant. These Project Variants are proposed in order to provide flexibility to allow the City to approve them as part of the Proposed Project, if desired. Each Project Variant would include the same land use program, parking/loading, mechanical equipment, vehicular circulation, streetscape improvements, and sustainability features as the Proposed Project.

Environmental Topics Evaluated/Potentially Significant Impacts The Draft EIR examines the potential impacts that would be generated by the Proposed Project in relation to the following environmental topics: Aesthetics; Air Quality; Biological Resources; Cultural & Tribal Cultural Resources; Energy Demand & Conservation; Geology & Soils; Greenhouse Gas Emissions; Hazards & Hazardous Materials; Hydrology & Water

Quality; Land Use & Planning; Noise & Vibration; Population, Employment, & Housing; Public Services; Transportation & Circulation; and Utilities & Service Systems. Potentially significant impacts have been identified in these topics except for Energy Demand & Conservation; Land Use & Planning; Population, Employment, & Housing; and Public Services.

In addition, the Draft EIR evaluates seven project alternatives: No Project, Reduced Project Size, City Services Center Alternative Site, Baldwin Hills Alternative Site, The District at South Bay Alternative Site, The Hollywood Park Specific Plan Alternative Site, and The Forum Alternative Site.

The Project Site was included on the following list compiled pursuant to Section 65962.5 of the California Government Code: (1) "Various City Properties", 3960 West 102nd Street, National Pollutant Discharge Elimination System (NPDES) database for discharges associated with demolition and construction activities;

(2) Well No. 6, 2991 West 102nd Street, State Water Resources Control Board (SWRCB) Enforcement Action and SWRCB Waste Discharge System or charter bus staging, and Transportation Network Company staging, pick-up and drop-off. The Proposed Project would also include a limited-service hotel use with up to 150 rooms on an approximately 1.3-acre portion of the East Transportation and Hotel Site. The hotel could include amenities such as a lobby, business center, a fitness room, a guest laundry facility, a market pantry, and/or an outdoor gathering area. The hotel would be approximately six stories, with a maximum height of approximately 190 feet. (3) Inglewood Redevelopment Agency, 3901 West 102nd Street, DTSC Hazardous Waste Manifest database; (4) Well No. INA 2NA 4 & 6, 3901 West 102nd Street, Facility Index System (FINDS) database for water supply well or wells; (5) E & M (further review determined this to be erroneous, and the auto repair facility is associated with the 10223 South Prairie Avenue property to the west, outside of project boundary); and (6) Omega Carpet & Light (proprietary) historical cleaner database from 1992.

Public Comment Period The EIR and its technical appendices are available for the public review and comment period required under Section 15105 of the CEQA Guidelines from December 27, March 17, 2020.

Written comments on the Draft EIR and technical appendices must be received no later than 5:00 p.m. on March 17, 2020. Submit written comments to: Mindy Wilson, AICP, Planning Manager, City of Inglewood, Planning Division, One West Manchester Boulevard, 4th Floor Inglewood, CA 90301

You may also send comments via email to: E-Mail: theproject@cityofinglewood.org
