### Opinion: Can Working Parents Still Teach Their Kids at Home?

Can working parents still teach their kids at home? It's a question that many parents are asking these days. With the pressures of a busy work schedule, it can be difficult to find the time and energy to spend on your children's education. However, there are ways to make it work. One option is to hire a tutor or a teacher to help with your child's homework and schoolwork. Another option is to use online resources and educational programs that can be accessed from home. The key is to find a solution that works for your family and your child's needs.
