### Opinion: Can Working Parents Still Teach Their Kids at Home?

As parents, we want the best for our children. We want them to be successful and to have a bright future. One of the best ways to ensure that is by providing them with a quality education. However, with the increasing number of working parents, it is becoming more difficult to provide a quality education at home. This is because many parents are unable to spend as much time with their children as they would like. This is a challenge that many parents face and it is one that needs to be addressed. We need to find ways to support working parents so that they can provide the best education for their children.
