Subject: IBEC: GSWA as-built request coordination

Hello Thomas,

We requested record plans from Golden State Water Company for existing water mains in the project vicinity to be able to show the latest utility information on public works improvement plans.

Golden State Water Company requested a letter of authorization from the City in order to provide as-built plans.

Attached is draft letter for your reference. Is it possible to provide this letter in City letterhead in order to obtain as-built plans?

Please let us know. Thank you.

Please let me know if you have any questions.

Thank you
