The City Council invites your participation in a Public Hearing concerning:

WHO: The City of Inglewood (City) and Murphy's Bowl, LLC (Developer)

WHAT: Entry by the City into a proposed Disposition and Development Agreement (DDA) with the Developer concerning the development of the Inglewood Basketball and Entertainment Center (Proposed Project). The Proposed Project consists of an arena designed to host the Los Angeles Clippers basketball team with up to an 18,000-fixed-seat arena suitable for National Basketball Association games, with capacity to add approximately 500 additional temporary seats for additional sports, entertainment or other events, as well as ancillary and incidental arena uses which is expected to include: (1) up to an approximately 85,000 square-foot team practice and athletic training facility; (2) up to approximately 71,000 square feet of Los Angeles Clippers team office space; (3) up to an approximately 25,000 square-foot sports medical clinic for team and potential general public use; (4) an outdoor plaza adjacent to the arena with circulation and gathering space and landscaping along with an outdoor stage and basketball court (collectively, the "Plaza"); (5) up to approximately 63,000 square feet of retail, food and beverage, back of house services, security, storage, bag check, rest rooms, and other uses adjacent to the Plaza; (6) parking facilities with parking spaces for vehicles and bicycles; (7) a transportation hub dedicated to bus, coach, and Transportation Network Company staging; (8) one or two pedestrian bridges across adjacent rights-of-way; (9) various on-site signage, broadcast, filming, recording, transmission, production, and communications facilities and equipment; and (10) other associated public improvements. Additionally, the Proposed Project would include a limited-service hotel use with up to 150 rooms. Three parking garages would provide 4,125 parking spaces. An existing City of Inglewood groundwater well presently located on the proposed arena portion of the Proposed Project site would be relocated by the Developer to a different part of the Proposed Project site.

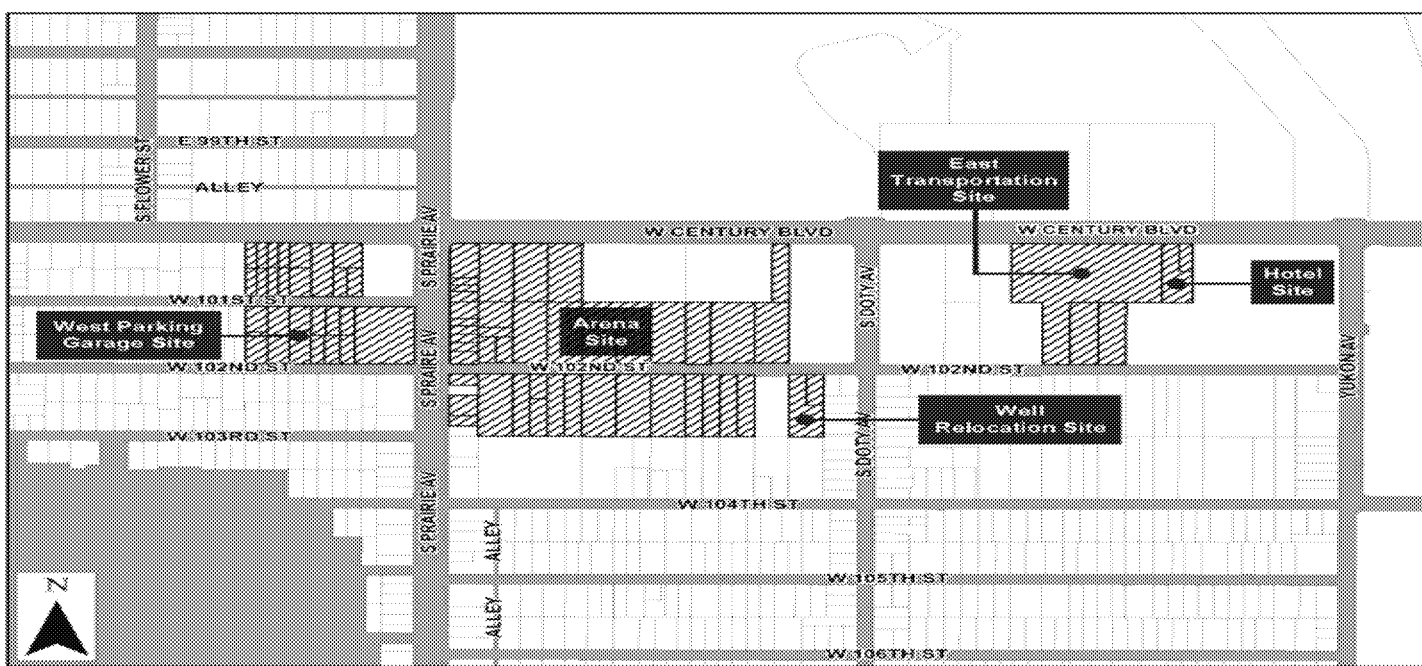

The DDA specifically provides for the development of the Proposed Project by authorizing the disposition of City-owned parcels, inclusive of certain parcels currently owned by the Successor Agency to the former Inglewood Redevelopment Agency (Successor Agency), that will be transferred to the City pursuant to the Successor Agency's Long-Range Property Management Plan adopted September 16, 2015 by the Oversight Board to the Successor Agency under Resolution No. 15-OB 007 (the "City Parcels"), and the potential acquisition of certain privately-owned properties by the City to augment site-assemblage for the Proposed Project site either through voluntary acquisitions or the potential exercise of its eminent domain authority along with the imposition of certain covenants required to preserve the public use of such properties upon the subsequent disposition to the Developer of these potentially acquired private parcels (the "Private Parcels"). The site-assemblage aspect of the DDA also contemplates the Developer potentially obtaining various other land interests required for the Proposed Project as more specifically described in the DDA including potential right-of-way areas, and pedestrian bridge airspace easements.

The DDA also contemplates and provides for the payment of a basic purchase price of \$66,250,000 by the Developer to the City for the City Parcels, as may be adjusted pursuant to the terms of the DDA that may, among such other things, include hazardous material remediation and negotiations with certain affected governmental entities. In addition to payment of the basic purchase price or such adjusted price as provided in the DDA, the Developer shall also be responsible for funding the entire cost of the Proposed Project, including incidental City costs for consultants, as well as all acquisition costs for the Private Parcels.
