Subject: Clippers: Scoping Meeting

Mindy

Following up our discussion of Boards for the scoping session. For the City station, we are assuming we'll have the large Project Area aerial photo, a list of proposed city actions/entitlements, CEQA process/schedule, EIR Issues, Transportation Study Area, and Transportation Issues. There will also be boards on Project Site aerial, Project Site Plan, Project Site with LAX Noise contours, Project Site Photos, Conceptual Site Plan and Example Arena Photos.

I have a note from Loren's team about having the City zoning map on a board. Is that something that you want at the scoping meeting? Or would you prefer GP Land Use Designations? Both? Neither?

Please let me know your thoughts.

Thanks.

B
