Good afternoon Christina. Per a discussion I had with Addie regarding public services, will you have access to the HPSP plans tomorrow during your meeting in Inglewood? I believe there is only a hard copy of the plans available? Addie and I were both thinking you could possibly take some pictures of the HPSP plans that provide any information regarding the following:

- Proposed fire infrastructure/fire facilities (i.e., proposed hydrants, new station); Check with Public Works
- Existing fire hydrants; Should be same plan as above
- Proposed water infrastructure/fire flow; Check with Building and/or Public Works
- Existing water infrastructure; Should be same plan as above
- Proposed police facilities; the Retail parking structure plans w/ police substation
- Proposed parks/recreation facilities. I think Bernard has the park plan

We need this information to include within the public services analysis regarding adjusted baseline.

Thank you so much.
