I received the below feedback from our stormwater section on the mitigation measure we specifically asked them about.

Respectfully,

Mindy Wilcox, AICP : Planning Manager : City of Inglewood

Subject: RE: IBEC-LID

Hi Mindy,

Please see below,

The project applicant shall comply with the NPDES MS4 permit regulations, NPDES General Construction Permit, Inglewood Municipal Code regulations, the County's LID Standards Manual, and the USGBC's LEED program to prevent the substantial degradation of water quality during Project construction and operation. A LID Plan and SWPPP shall be prepared to the satisfaction of the City and Los Angeles RWQCB to ensure the prevention of substantial water quality degradation during Project construction and operation. These plans shall be approved by the City and Los Angeles RWQCB to confirm that these permit and regulatory requirements have been satisfied before construction commences on the site. The plans should be followed and the post construction requirements of the MS4 Permit should be met following construction completion..

Thanks,

Lauren Amimoto, CPSWQ, QSD | Stormwater Coordinator

Hi Barmeshwar and Lauren,

Can you confirm the accuracy/adequacy of the below language proposed to be a Mitigation Measure for the IBEC project. This language (or similar) is contained within the draft chapter that I previously sent you. Thanks very much.

Mindy
