Subject: Murphy's Bowl: Forum Event Estimates in December and f/u on early November attendance

It does help, yes. Thank you for this Peter. It looks like the operator is using 13,000 as a common way of identifying the TCP needed, rather than a more precise estimate. Perhaps that means "13,000 or more."

Were you able to obtain the actual or estimated attendance at the Forum on Friday 11/2 when Ozuna performed, and to confirm that there was no show on Saturday 11/3?

-Netai

Subject: Forum Event in December

Tom/Netai,

I know there is discussion about collecting traffic counts during a Forum Event. Attached is the Calendar they send me with estimated attendance for each concert. They anticipate 13,000 at all concerts this month. Hope this helps
