Subject: RE: Murphy's Bowl: Request for Signal Timing Plans, Future Baseline Street Improvements and Century Blvd Plans (ref. 3002)
Attachments: IBEC_Simulation_Intersections_CityofInglewood.xlsx

Hi Peter,

Thanks very much for providing the intersection timing plans. We realized that the initial list we provided included some intersections that are not part of the simulation network. I've attached a list of the remaining intersections in the City that are part of the simulation network, which the intersections that we most need the sheets.

Thanks,
Mike

Subject: Murphy's Bowl: Request for Signal Timing Plans, Future Baseline Street Improvements and Century Blvd Plans (ref. 3002)

Peter –

Attached is the current list of study intersections for the proposed IBEC project. For each intersection controlled by the City of Inglewood we ask for:

- Signal timing plans and timing schedules
- Any planned and funded improvements/changes to these intersections, whether planned as City-initiated improvements or as mitigation for other development projects

In addition we ask for:

- List and description of a transportation-related projects in the City's current CIP

- Future signing and striping plans for Century Boulevard and, if available, a narrative description of the ongoing improvement project
- Information on the City's ITS Program – description of current system, extent of current system, extent of any planned improvements/expansion by 2024

Thank you.
