Subject: RE: Murphy's Bowl: Request for Signal Timing Plans and Future Baseline Street Improvements (ref. 3002)

You're correct, Peter. It was my mistake to include La Cienega Blvd & Arbor Vitae St in the request to LADOT. We'll coordinate with you on changes related to the ConRAC.

Netai,

The intersection of La Cienega Blvd @ Arbor Vitae is maintained by the City of Inglewood. I sent the timing sheet, if you did not get it please let me know so I can resend it.

Also, the plans for the ConRAC facility, which will modify Arbor Vitae and La Cienega, are in the preliminary design phase. If you need to understand the modifications taken place, we can discuss them. Though understand they are subject to change based on the award of the consulting team.

Subject: Murphy's Bowl: Request for Signal Timing Plans and Future Baseline Street Improvements (ref. 3002)

Mr. Haeri –

This message follows up on our phone conversation this morning. For each intersection listed below that is controlled by the City of Los Angeles we ask for:

- Existing signal timing plans and timing schedules (and future, if known)
- Planned and funded improvements/changes to these intersections, if any, whether planned as City-initiated improvements or as mitigation for other development projects. While we're aware of the LAMP project, we want to be sure that we're working with the most current plans for these intersections.

1. La Cienega Blvd & Arbor Vitae St
2. La Cienega Blvd & I-405 SB ramps (n/o Century Blvd)
3. Concourse Way & Century Blvd
4. La Cienega Blvd & Century Blvd

5. La Cienega Blvd & I-405 SB ramps (s/o Century Blvd)
6. Van Ness & Hardy/96th St
7. West & Florence Ave

Thank you.
