Subject: Murphy's Bowl - FP Follow Up on Timing for Delivery of New Baseline Traffic Counts (ref. 3002)

Hi Srinath.

We're planning our time for next week and beyond, and are ready to work with the new baseline traffic count data that's been collected for this study. The videos can follow the counts themselves, in MS Excel format. When will you send us the counts?

Of course, the data from the recent request for a few additional count locations (one intersection and several 24-hour counts) will lag, but we're ready to work with the new intersection turning movement counts that you have.

Let us know what to expect please. Thanks, and have a great weekend!

Subject: RE: Murphy's Bowl Counts and Videos

Hi Mike,

We have received all the counts for Friday and Saturday (various time periods) at most locations and are in the process of conducting preliminary QA/QC checks (flow, variation over time periods, etc.). We are scheduled to conduct the remaining additional intersection TMCs during the same days/time periods at the LA-County requested locations this weekend. We should have a complete picture of the "missing counts" by late next week. We have noticed lane closures at a few locations due to construction-related activities. Once we have all the data needed for your project collected and processed, we will let you know the overall picture. But, for the most part, we think that most of the locations that you had requested have been successfully completed and processed. The additional locations data collection status will be known, hopefully by the end of next week.

Best-
Srinath

Hi Srinath,

Following up on my email from last week, can you provide an update on the counts and videos?

Thanks,
Mike

Subject: Murphy's Bowl Counts and Videos

Hi Srinath,

We are interested in obtaining the videos taken during counts for our simulation periods to help with behavior and queue observation (in addition to our field observations). Are you planning to obtain the videos, or should coordinate directly with Ed?

Were there any issues with the counts taken last week? Do you know what the schedule is for count delivery?

Thanks,
Mike
