## California Public Utilities Commission

The CPUC regulates services and utilities, protects consumers, safeguards the environment, and assures Californians' access to safe and reliable utility infrastructure and services. The essential services regulated include electric, natural gas, telecommunications, water, railroad, rail transit, and passenger transportation companies. On this website you'll find information about the many initiatives underway at the CPUC.

## CPUC Regulates and Registers these Services to Protect the Public

Energy

The CPUC regulates investor-owned electric and natural gas utilities operating in California.

Communications

The CPUC develops and implements policies for the telecommunications industry

Rail

The CPUC is the state agency that oversees rail safety; this includes freight, inter-city and commuter railroads, rail transit and rail crossings.

Passenger

The CPUC also administers safety oversight and enforcement of passenger carriers (limousines, shuttles, etc.).

Water

The CPUC investigates water and sewer system service quality issues, analyzes, and processes utility rate change requests.

## Insights

35%

Reduction in Rail Accidents  
in 2014

65%

Increase in testing for  
Natural gas leaks

300,000

Energy efficiency programs  
last year saved enough  
energy to power almost this  
many homes

### Filing a Language Access Complaint

The California Public Utilities Commission (CPUC) strives to provide all members of the public equal access to its services. In compliance with the Dymally-Alatorre Bilingual Services Act and Title VI of The Civil Rights Act of 1964, the CPUC provides verbal interpretation and translation of written materials ...
