Good morning Alexandra. Someone from your department called me yesterday afternoon (I forgot her name) and requested that I send my fire information request electronically. She told me that she would email me since she had my email, so I could send her the file electronically. However, I never received an email. As such, I've attached the file. Please forward to the appropriate LACFD staff. Thank you.

Good Afternoon,

I did process your request it is currently being worked on. Due to other projects submitted and our timeframe we will not be able to get you your information till the end of the month.

Thank you,

Alexandra Cuadra

Good evening Alexandra. Welcome back from your vacation. Could you provide me an update with your status for my information request? Could we have your responses by tomorrow morning? The IBEC project takes priority over my WASP EIR Addendum project. Please advise. Thank you.

Subject: IBEC Request for Information from LACFD

Good afternoon Alexandra.

In coordination with the City of Inglewood Planning Division, ESA is preparing an Environmental Impact Report (EIR) for the proposed Inglewood Basketball and Entertainment Center (IBEC) project pursuant to the California Environmental Quality Act (CEQA). ESA is seeking additional clarification/information regarding fire protection and emergency medical services for the IBEC project.

I spoke with Judith Thomas in the Forestry Division today. She mentioned that requests for information regarding EIR requests should be directed to the Forestry Division. She gave me your contact information and told me you would be able to help me with this request. I have also previously sent this request to Christie Camacho (copied on this email).

Please find the attached information request letter. Please feel free to call me to discuss our information needs and/or any questions regarding the IBEC project. An emailed response to this information request would be ideal. If possible, we are hoping to receive a response by the end of the day on Wednesday, January 2nd. I appreciate your time and assistance with this effort. Happy holidays and happy new year.
