Center EIR

# CEQA Overview and EIR Process

- The California Environmental Quality Act (CEQA) applies to discretionary projects.
- The purpose is to inform decision-makers, agencies, organizations, and the public of the environment effects of a project
- Identifies potential effects on the environment
- Identifies ways to avoid or reduce potential significant effects through mitigation measures or alternatives

## Issues to be studied in EIR

- Aesthetics, Light, and Glare
- Air Quality
- Biological Resources
- Cultural Resources
- Energy Demand and Conservation
- Geology and Soils
- Greenhouse Gas Emissions
- Growth Inducement and Urban Decay
- Hazards and Hazardous Materials
- Hydrology and Water Quality
- Land Use and Planning
- Noise and Vibration
- Paleontological Resources
- Population, Employment, and Housing
- Public Services
- Public Utilities and Service Systems
- Transportation and Circulation
- Alternatives

# Scoping Meeting Process

- Information Stations and Q&A
