Subject: Monday IBEC call

Hi guys, happy Friday. Wanted to check in about Monday's calls and suggest that we do not have the IBEC call at 11 AM. I also wanted to talk about collapsing the 11 am and the 1 o'clock because it doesn't seem to make sense to have two calls on the same day. Originally, we started this because it seem like there were different groups of people that needed to talk about different things, but at this point, I feel like they're merging into one set of people and issue list. Please let me know if this is OK because I would like to be respectful of everybody's time and the more efficient.

Please also see the proposed agenda for the 1 PM call:

Update Status of Information Needs:

1. Assumption about existing on-site billboards (are they going to be relocated or just eliminated?) (City/Applicant)
2. Date for Sustainability Goals/Elements (Applicant)
3. Status of AB52 consultation (from City)
4. Direction on gentrification evaluation (City)
5. Contacts for Fire, Police, Parks & Rec (City)
6. Direction on basis for assumption on non-basketball event attendance (City/Applicant)
7. Direction on VMT Threshold (City/Applicant)

Is there anything else you would like to talk about. We have included Royce and Chris Jackson and Whit Manley on the 1 PM invite list.
