Subject: IBEC Site History

Hi Mindy and all,

We're working through the land use and introduction chapters of the EIR. These sections would benefit greatly from a narrative describing the history of the Project Site. We'd like to tell the story about how the site came to be sitting largely vacant and City-owned. A history of the development, when the City acquired the properties, when the site was cleared, the relation to the airport noise mitigation requirements, etc. We've gone through the ENA and other documents we have and can't seem to find the information we're looking for. Can you provide something or point us in the right direction? As the deadlines are upon us, we appreciate your quick attention to the matter.

Thank you!

Addie Farrell
