Hi, Christina,

For your review, I'm attaching an updated EIR site plan produced by AECOM that incorporates some of the comments from our last round of review.

I have two further changes that should be made to this version: (1) move the employee entry pavilion label to a different location to avoid confusion, and (2) remove structures shown in HPSP area that are not anticipated to be built until later phases of HP development.

If you can please review and let me know if you have any additional suggestions or revisions, we will send consolidated comments to AECOM.

Thanks,  
Dennis
