Subject: Murphy's Bowl Synchro Networks
Attachments: Murphy's Bowl Synchro Networks_8_27_18.zip

Hi Peter,

In regards to our discussion last week about providing our synchro networks to assist in the preparation of the NFL stadium TMOP, attached please find the networks that have been developed for the Murphy's Bowl EIR.

Please note that for the weekday post event time period (9:30 PM to 10:30 PM), there are two different signal timing plans at some intersections, one ending at 10:00 PM and one beginning at 10:00 PM. The "WD_Post" file represents the plan in service from 9:30 PM to 10:00 PM, and the "WD_Post_b" file represents the plan in service from 10:00 PM to 10:30 PM.

Thanks,
Mike
