Hi Lisa,

Attached is a map showing the area we are including in our analysis. I also shared the Synchro network with you and Peter a few weeks ago, which provides further details about the area we are studying.

Thanks,
Mike

Hi guys – just wanted to follow up with you both and ask for a map of the roadway corridors and intersections that are being covered in your synchro model for the IBEC EIR. Please see the email thread below and let me know if you have any questions, and where this request is coming from.

Thanks,

Lisa Trifiletti

Lisa,

I wanted to follow-up on this item. Can you please get from Fehr & Peers a map or list of roadway corridors and intersections that are included in their Synchro network for the IBEC project?

Thanks,

Jeff

Subject: Fehr & Peer Synchro Network

Hi Lisa,

Could you reach out to Fehr & Peers and have them provide us with a map of the roadway corridors and intersections that are included in their Synchro network for the Clippers arena project? We would like to see what is included in their Synchro network since it will be about a month before we get their Synchro files.

Thanks,
