Perla,

Thanks again for the email. At this time, we do not have any further details regarding the LA Phil Youth Orchestra development.

We would appreciate your latest cumulative related project list, even if Fehr & Peers is continuing to refine. The list is need for us to restart our TOD planning efforts.

Best Regards,
Fred

Good morning Fred,

Checked in with the project team and Fehr & Peers are actively working on updating and refining the related projects list from data that was collected in May 2018. Thus, the version you have should be the latest version. Once complete, Fehr & Peers will send out the related projects list with a map to the project team and we'll make sure you receive the latest version immediately.

Thank you for updating the descriptions for the list attached. However, we received notice from the F&P that it would be helpful if Inglewood could **provide more information on the project at 101 S La Brea**. Do you have information on either the number of students or the size of the building?

The description provided stated that the project would transform a 17,000 sqft bank building but will the size remain consistent? Or will the project add sqft?

Please call me if you have any questions,
