Subject: Preliminary (Working Draft) Schedule of Information Needs

Chris

Following up our discussion last week, please find attached an initial preliminary draft of a schedule of information needs of for the Clippers Arena EIR. You will note that we have laid out the information needs in the context of the overall schedule for the EIR, assuming kickoff the first week of January, and completion by end of May 2019. This schedule was prepared with our past experience on other arenas in mind, knowing that some information will be available before other information, and that we need some things before others. That said, I need to caveat that this has not been fully vetted with the City, nor with our subconsultants. I expect that this schedule will be revised and refined on a regular basis over the coming weeks/months, based on what the design team can provide, what input we receive from other consultants and City departments, etc.

I hope that this is useful in your discussions with AECOM, and look forward to reviewing and refining the schedule with your team and the City.

Please let me know if you have questions. I am on "vacation" this week, so hopefully we could talk on Tuesday next week. If you need to talk before then, call my cell.

Thanks. Happy New Year!

BB
