

Crenshaw/LAX Transit Project

Watch the flyover rendering of the future Crenshaw/LAX Line

[Fact Sheet](#)

http://media.metro.net/projects_studies/crenshaw/images/crenshaw_flyover_rendering_fact_sheet.pdf

: Learn more about the making of the video!

The Metro Crenshaw/LAX Line will extend from the existing Metro Exposition Line at Crenshaw and Exposition Boulevards. The Line will travel 8.5 miles to the Metro Green Line and will serve the cities of Los Angeles, Inglewood and El Segundo; and portions of unincorporated Los Angeles County. The new Metro Rail extension will offer an alternative transportation option to congested roadways and provide significant environmental benefits, economic development and employment opportunities throughout Los Angeles County. Riders will be able to make easy connections within the entire Metro Rail system, municipal bus lines and other regional transportation services.

The Crenshaw/LAX Transit Project will serve the Crenshaw District, Inglewood, Westchester and surrounding area with eight stations, at:

1. Expo/Crenshaw
2. Martin Luther King Jr.
3. Leimert Park
4. Hyde Park
5. Fairview Heights
6. Downtown Inglewood
7. Westchester/Veterans
8. Aviation/Century

In addition to the alternative transportation option to congested roadways, the project will also provide significant environmental benefits, economic development and employment opportunities throughout Los Angeles County.

The Crenshaw/LAX Project is one of 12 transit projects funded by Measure R, the half-cent sales tax approved by Los Angeles County voters in 2008.
