Hi Bettye,

I'm just letting you know that I won't be there today until mid-afternoon. I have an emergency dental appointment this morning at 11:30.

Doug

Good Morning Mr. Smith,

We have RSI Grant Closeout Reports which have information regarding the location of homes and the date by year of funds expended to insulate the homes embedded within these reports. We have ten reports which covers Grant 4 through our current Grant 14 totaling 228 pages.

Please advise me how to prepare these reports for your review.

Thanks

I have not received a reply to this message of Monday. Can we discuss the database?

Hi Bettye,

In a phone call a couple of weeks ago you told me you did not have any records responsive to my request to review Inglewood's sound insulation Grant Improvement Plans. I am coming back to you because I was unable to find any documents relevant to the sound insulation program among several folders of documents compiled by the Successor Agency. It seems that as director of the RSI program you would be the logical person to maintain those records.

I have been told that the city has a database of RSI contracts. If so, that could provide the information I am seeking. I would like to know the location of homes that have been insulated and the dates (by year) when this was done. If that information cannot be extracted from a database, I'd still like to review the applications made to the FAA and LAWA.

Doug

Good Afternoon Mr. Smith,

Thank you for your e-mail, however all Public Requests must go through our City Clerk's office.

Thanks

**Subject:** Public records request

Ms. Griffith,

I wanted to be sure you understood that my phone call earlier this week constituted a request under the Public Records Act. I am seeking access to records of the city's FAA and LAWA Grant Improvement Plans and closure reports.

Rather than requesting complete copies, I would ask to view the documents at your convenience and determine which portions I would want copied.

Please let me know when I can come to your office to view these files.

Thank you,

Doug Smith
