Inglewood, California, June 21, 1994

TO: Mayor and City Council

FROM: The Staff

SUBJECT: Approval of Grant Agreement with the U.S. Federal Aviation Administration

This staff report request that the City Council approve the execution of the 1994 Federal Aviation Administration (FAA) Grant Agreement, when it is available, and authorize the City Manager to execute the agreement as the City's designated official representative.

Background

Since 1986, the City of Inglewood has received nine grants totaling \$26,616,000 from the FAA. The funds are used to acquire parcels of land heavily impacted by aircraft noise which are then recycled to noise compatible commercial and industrial land uses.

Discussion

The 1993-94 Grant will be used to recycle incompatible land uses within the Inglewood Noise Compatibility Project III (INCIP) area to uses which are not noise sensitive. This Grant Offer for \$2,790,225 will help the City to fulfill its obligation under the LAX Noise Control/Mitigation Program.

FAA Grant Agreements must be executed by the City each year before September 30 and are usually sent to Inglewood before the end of August. However due to budgetary lobbying efforts at the federal level in Washington D.C., FAA could not issue Inglewood's Grant Agreement until this month. In order to execute the grant, the 1994 Grant Agreement must be prepared by FAA, approved by the City

Council, signed and returned to FAA on or before June 30, 1994. It is unlikely that the grant documents will be received in time to submit it to the City Council for approval before the deadline; and therefore FAA has requested that the City pre-approve the execution of the agreement although it has not been received. This is not an unusual request, in fact, this was requested for the 1993 Grant Offer for \$3,000,000.

The 1994 FAA Grant Agreement will be nearly identical to the attached 1993 FAA Grant Agreement which was executed by the City Manager on June 15, 1993. FAA has given a verbal commitment for a 1994 grant in the amount of \$2,790,225.

Recommendation

It is recommended that the City Council approve the execution of the 1994 Federal Aviation Administration (FAA) Grant Agreement, when it is available, and authorize the City Manager to execute the agreement as the City's designated official representative.

Tony DeBellis, Deputy City Manager for Community Development and Housing

After Grant Agreement, the FAA may designate such land which must be sold by the Sponsor. - b. It shall make available to the Secretary and the Comptroller General of the United States, or any of their duly authorized representatives, for the purpose of audit and examination, any books, documents, papers, and records of the recipient that are pertinent to the grant. The Secretary may require that an appropriate audit be conducted by a recipient. In any case in which an independent audit is made of the accounts of a sponsor relating to the disposition of the proceeds of a grant or relating to the project in connection with which the grant was given or used, it shall file a certified copy of such audit with the Comptroller General of the United States not later than 6 months following the close of the fiscal year for which the audit was made.
9. **Minimum Wage Rates.** It shall include, in all contracts in excess of \$2,000 for work on any projects funded under the grant agreement which involve labor, provisions establishing minimum rates of wages, to be predetermined by the Secretary of Labor, in accordance with the Davis-Bacon Act, as amended (40 U.S.C. 276a—276a-5), which contractors shall pay to skilled and unskilled labor, and such minimum rates shall be stated in the invitation for bids and shall be included in proposals or bids for the work.
10. **Veteran's Preference.** It shall include, in all contracts for work on any projects funded under the grant agreement which involve labor, such provisions as are necessary to insure that, in the employment of labor (except in executive, administrative, and supervisory positions), preference shall be given to veterans of the Vietnam era and disabled veterans as defined in Section 515(c)(1) and (2) of the Airport and Airway Improvement Act of 1982. However, this preference shall apply only where the individuals are available and qualified to perform the work to which the employment relates.
11. **Conformity to Plans and Specifications.** It will execute the project subject to plans, specifications, and schedules approved by the Secretary. Such plans, specifications, and schedules shall be submitted to the Secretary prior to commencement of site preparation, construction, or other performance under this grant agreement, and, upon approval by the Secretary, shall be incorporated into this grant agreement. Any modifications to the approved plans, specifications, and schedules shall also be subject to approval by the Secretary and incorporation into the grant agreement.
12. **Construction Inspection and Approval.** It will provide and maintain competent technical supervision at the construction site throughout the project to assure that the work conforms with the plans, specifications, and schedules approved by the Secretary for the project. It shall subject the construction work on any project contained in an approved project application to inspection and approval by the Secretary and such work shall be in accordance with regulations and procedures prescribed by the Secretary. Such regulations and procedures shall require such cost and progress reporting by the sponsor or sponsors of such project as the Secretary shall deem necessary.
13. **Operation and Maintenance.** It will suitably operate and maintain noise program implementation items that it owns or controls upon which Federal funds have been expended.
14. **Hazard Prevention.** It will protect such terminal airspace as is required to protect instrument and visual operations to the airport (including established minimum flight altitudes) by preventing the establishment or creation of future airport hazards on property owned or controlled by it or over which it has land use jurisdiction.

Dear Mr. Cabalbag:

In regards to your letter date September 28, 1995, the staff has looked into the Federal Aviation Administration's (FAA) inquiries regarding four electronic payments made to the City of Inglewood for properties acquired as part of the City's airport noise abatement activities. The results of our investigation are as following:

Drawdown No. 1 & 2 (AIP 3-06-0139-N9)

The ten properties identified in Grant Agreement N9 have been acquired by the City. Staff has prepared a Title Certificate and compiled all of the acquisition documentation (i.e., Grant Deeds and Title Insurance policies) for submission to FAA. Because the City is still making last resort housing payments to tenants affected by the property acquisitions, Grant N9 cannot be closed out for at least two more years. Upon completion of all of the last resort housing payments, the City will prepare a final Outlay Report to close out the grant.

Drawdown No. 3 (AIP 3-06-0139-ND)

During the process of acquiring two properties, problems arose that prevented the City from taking possession of the properties at the time the funds were withdrawn. Because the City incurred project expenses (i.e., appraisal and legal fees) totaling \$3,027.04 during the early stages of the acquisition, the City is returning to FAA the funds it withdrew to acquire the properties and the interest generated by the funds minus the project expenses incurred by the City. Therefore, the City is returning \$1,388,000.00 to Grant ND and \$18,977.34 in interest generated by the funds. The City still intends to acquire the two properties at a later date.

Drawdown No. 4 (AIP 3-06-0139-NG)

With the assistance of Grant NG funds, the City acquired a 25-unit trail park site. In correspondence to FAA dated July 13, 1995, the City submitted a Title Certificate, Grant Deed and Title Insurance Policy as proof of the acquisition of the property. A copy of the correspondence is attached to this letter for your records.

Should you have any questions regarding our findings, please direct your inquiries to Mr. David Lamdagan at (310) 412-5290.

Sincerely,

Jesse Lewis

Mr. Jesse Lewis, Director
Inglewood Redevelopment Agency
One Manchester Blvd.
Inglewood, CA 90301

Dear Mr. Lewis:

Our records for active grants to the city of Inglewood reveal that electronic payments were made by FAA to the city under the Letter of Credit in connection with real property acquisitions. We understand that the following recent electronic drawdowns have been accomplished as a result of reimbursement for land:

Drawdown	Grant #	Amount	Date
1	AIP 3-06-0139-N9	\$1,914,181.00	2/28/94
2	AIP 3-06-0139-N9	\$1,240,839.00	5/2/94
3	AIP 3-06-0139-ND	\$1,391,027.00	7/26/95
4	AIP 3-06-0139-NG	\$1,252,801.20	6/30/95

The terms and conditions of the grant agreements requires the city to submit to FAA satisfactory evidence of fee title for land acquired (for which reimbursement is sought) prior to FAA reimbursement. The submission of a title certificate and support documentation is an acceptable means of furnishing to FAA such evidence. With the exception of the drawdown 4, evidence of title were not received for the above mentioned drawdowns. This office would be most pleased to receive the required title certificates for the drawdowns 1 through 3. It is important that you submit the required title certificates for the drawdowns as soon as possible. Please give this your most immediate attention, otherwise we may have to consider the revocation of the Letter of Credit conditions on your active grants.

If you have any questions or concerns, please feel free to give our office a call at (310) 725-3630.

Sincerely,

Ruben C. Cabalbag

FILE COPY

SUBJECT: Approval of Grant Agreement with the U.S. Federal Aviation Administration

This staff report requests that the City Council approve the execution of the 1994 Federal Aviation Administration (FAA) Grant Agreement, when it is available, and authorize the City Manager to execute the agreement as the City's designated official representative.

Background

Since 1986, the City of Inglewood has received nine grants totaling \$26,616,000 from the FAA. The funds are used to acquire parcels of land heavily impacted by aircraft noise which are then recycled to noise compatible commercial and industrial land uses.

Discussion

The 1994 Grant will be used to recycle incompatible land uses within the Inglewood Noise Compatibility Project III (INCIP) area to uses which are not noise sensitive. This Grant Offer for \$2,790,225 will help the City to fulfill its obligation under the LAX Noise Control/Mitigation Program.

FAA Grant Agreements must be executed by the City each year before September 30 and are usually sent to Inglewood before the end of August. However due to budgetary lobbying efforts at the federal level in Washington D.C., FAA could not issue Inglewood's Grant Agreement until this month. In order to execute the grant, the 1994 Grant Agreement must be prepared by FAA, approved by the City

Mayor and City Council
June 21, 1994
Page 2

Council, signed and returned to FAA on or before June 30, 1994. It is unlikely that the grant documents will be received in time to submit it to the City Council for approval before the deadline; and therefore FAA has requested that the City pre-approve the execution of the agreement although it has not been received. This is not an unusual request, in fact, this was requested for the 1993 Grant Offer for \$3,000,000.

The 1994 FAA Grant Agreement will be nearly identical to the attached 1993 FAA Grant Agreement which was executed by the City Manager on June 15, 1993. FAA has given a verbal commitment for a 1994 grant in the amount of \$2,790,225.

Recommendation

It is recommended that the City Council approve the execution of the 1994 Federal Aviation Administration (FAA) Grant Agreement, when it is available, and authorize the City Manager to execute the agreement as the City's designated official representative.

The Offer is made on and subject to the following terms and conditions:

Conditions

1. The maximum obligation of the United States payable under this offer shall be \$3,000,000.00. 4. The Sponsor shall carry out and complete the project without undue delays and in accordance with the terms hereof, and such regulations and procedures as the Secretary shall prescribe, and agrees to comply with the assurances which were made part of the project application.
5. The FAA reserves the right to amend or withdraw this offer at any time prior to its acceptance by the Sponsor.

It shall furnish to the Secretary, upon request, all documents and records pertaining to the determination of the amount of the Federal share or to any settlement, litigation, negotiation, or other efforts taken to recover such funds. All settlements or other final positions of the Sponsor, in court or otherwise, involving the recovery of such Federal share shall be approved in advance by the Secretary.
8. The United States shall not be responsible or liable for damage to property or injury to persons which may arise from, or be incident to, compliance with this Grant Agreement.

Sponsor fiscal and accounting records shall clearly identify actual sources and uses of these funds.
10. It is understood and agreed by and between the parties hereto that the Sponsor will acquire a fee title or such lesser property interest as may be found satisfactory to the FAA to Parcels as described in the Project Application and as shown on the property map attached hereto and identified as Exhibit "B-1" and that the United States will not make nor be obligated to make any payments involving the aforesaid parcels as shown on the property map attached hereto until the Sponsor has submitted evidence that it has acquired a fee title or such lesser property interests as may be found satisfactory to the FAA in and to said parcels (or any portion thereof for which grant payment is sought) subject to no liens, encumbrances, reservations or exceptions which in the opinion of the FAA might create an undue risk of interference with the use and operation of the airport.
11. It is agreed that land in this project purchased for noise compatibility purposes may be subject to disposal at the earliest practicable time. After Grant Agreement, the FAA may designate such land which must be sold by the Sponsor. The Sponsor will use its best efforts to dispose of such land subject to retention or reservation of any interest or right therein necessary to insure that such land is used only for purposes which are compatible with the noise levels of operation of the airport. The proceed of such disposition either shall be refunded to the United States for the Airport and Airway Trust Fund on a Basis proportioned to the United States share of the cost of acquisition of such land, or shall be reinvested in an approved project, pursuant to such instruction as the FAA will issue.

Note: contacted Ruben Enradi with FAA/Manager of Civil Rights Staff
at 310-297-1445.

Mr. Enradi say that since the City of Ingelwood uses FAA grants for only property acquisition, DBE Program would not apply in our circumstances and that the City should not be concerned with that particular requirement.
