Heather,

I have just been informed that the WSA is due to the City on 7/24. Would it be possible for GSWC to complete your review by 7/21, to give us time to revise the report as needed?

Thanks,
Maureen

Heather,

We are finishing our work on the WSA for the IBEC project. We'd like to update the WSA to include pumping from each aquifer through 2018. I was able to find total pumping by GSWC for the central basin and west basin from the WRD Watermaster. It appears GSWC pumps in the central basin for more than one service area. Can you help complete the table attached?

Thank you,
Maureen

Yes, we assumed it was via phone as we are located in the Bay Area.
Should we call your office line?

Hello Maureen:

Are there any water connections with the City of Inglewood? It seems the water mains indicated on 102 St belongs to the City and water improvements are connecting to it.

Does the City own well [south of 102 St.] to be relocated?

Thanks again,

Heather
