Hi Addie,

We will coordinate site access for May 10<sup>th</sup> and returning on May 14<sup>th</sup>. However, I cannot guarantee that someone can be available all day to provide access.

Best,  
Fred

**Subject:** Murphy's Bowl: Site Visit

Hi Fred,

Thanks again for taking the time to get us out to the site this week, it was a productive visit. As we anticipated, we do have some follow up focused data collection efforts that will need to occur on the sites. We're hoping to get a team back out there on May 10 in the morning, and we would have a couple different groups with different needs collecting information, some needing to stay all day. During this effort, we'd also be installing a few noise meters that would remain at various locations across the sites through the weekend, to be picked up Monday.

Do you see any issues or concerns with this effort? Can someone be available all day on the 10<sup>th</sup> to help provide access to the various sites, and then on Monday May 14<sup>th</sup> in the morning to allow us to collect our equipment?

Thank you!
