Hi Dennis,

Yes, sewer study came through this morning. Thanks.

Okay – just sent over the sewer report via deliverit, did that come through? I'll resend the photosims through deliverit in a moment if so.

By the way, I'm scheduled to go out with the photographer to the site on Monday morning.

Hi Dennis,

We did not receive the photosims (our server must have bounced them back to you).

Subject: IBEC: Site photos and photo simulations

Hi, Christina,

I am coordinating with AECOM to get 55mm/5-ft high site photos from the identified photo locations map, and it looks like they will be able to get the photos the first week of October. We will send the photos for review shortly after, with photosims from those locations to follow in a few weeks. We've provided the draft photosims last week; if you have those to use as placeholders, does final photosims in the 3rd week of October work to keep us on schedule?

Thanks,

Dennis

Dennis Kanuk
