Brian, Olivia, and Heidi,

Attached are two graphics and two tables showing the anticipated construction activity on the main arena site, updated to provide some additional detail (this includes an additional diagram that helps present the info a little more clearly). Based on information provided by the project construction contractor, this represents a reasonably conservative estimate of the likely activity and areas based on the level of design information available at this time.

Please let me know if you have any questions.

Thanks,  
Dennis
