Subject: Well Site

Mindy,

Can you confirm the highlighted piece? This is a description of the existing conditions in the PD, and I'm not recalling an existing building there.

The Well Relocation Site is located at 3812 West 102nd Street, approximately 100 feet east of the Arena Site. The vacant site consists of two parcels totaling approximately 0.7 acres. The site is surrounded by metal chain link fencing on the northern and eastern edges, a wrought iron fence along the southern boundary, and a building, half-block wall, and wrought iron fencing along the western boundary.
