

Memorandum

Date: August 16, 2019

To: File

From: Netai Basu

Subject: Documents Used but Excluded from the Administrative Record Ref.: 3002

Material in the documents listed below was used in the preparation of the Draft EIR for the proposed Inglewood Basketball and Entertainment Center. These documents, however, are copyrighted, are separately available and cannot be duplicated.

- The *Highway Capacity Manual (HCM), 6th Edition* (Transportation Research Board, 2016) presents analytical techniques for evaluating the operation of various transportation facilities (such as freeways, intersections and pedestrian facilities) and the effects of alternative design scenarios.
- *Trip Generation Manual, 10th Edition* (Institute of Transportation Engineers (ITE), 2017) is a reference document which provides detailed descriptions of numerous land use types, summaries of empirical data on trip-making during various time periods, scatter plots and statistical data that can be used to develop estimates of vehicle trips for a proposed development.
