Perla,

I just received a call from METRO green line contact and said that he will send me the file in 2 or 3sets because it is huge. I am still waiting. Thanks.

Hi Boytrese – Do you happen to have architectural drawings (high level) for the Hawthorne/Lennox Station and Crenshaw station ? The Clippers Project Team is requesting simplified station plans for the Green Line stations.

Specifically, the Team is requesting site plans/drawings/architectural plans that show pedestrian staging areas (including width and length of sidewalks), location and number of bus/shuttle bays (or length of bus/shuttle curb space), location of vehicle parking areas and number of parking spaces, and information that generally shows passenger loading/waiting areas and vehicle loading/access/circulation areas.

Please call me if you have any questions,

Importance: High

Good morning Carlos,

Thank you for your help in obtaining the architectural drawings for the Downtown Inglewood, Fairview Heights and Westchester/Veterans Crenshaw/LAX stations. The design and engineering team are looking forward to getting the drawings today so that they can proceed with their analysis.

Please provide an update on when we will receive the architectural drawings.

Have a good day,

Perla Solis

Hi Perla,

I've asked that they provide the new drawings by Thursday morning.

Thank you,

Carlos

Hi Carlos,

Hope this email finds you well. I apologize for the inconvenience but could you please provide an estimate date on when your team could provide the architectural drawings/site plans for the (1) Downtown Inglewood (2) Fairview Heights?

Thanks in advance.

Subject: RE: CAD Files Request: Inglewood Transit Connector Project

Hello Carlos,

Thank you for the update. Regarding Crenshaw/LAX stations (Downtown Inglewood and Fairview Heights) just wanted to clarify that we actually need the architectural drawings/site plans for the stations not the civil and structural engineering CAD files we receive last week.

Specifically, they are requesting a "base" site plan that all the various station components (i.e. platform, fire gate ticketing, etc.) are placed so that they know where each piece is exactly located on the Metro Site.

I apologize for the urgency, but could you please send architectural drawings/site plans for the (1) Downtown Inglewood (2) Fairview Heights stations at your soonest possible convenience.

Thank you for your help. We greatly appreciate it.

Boytress/ Perla,

We only have access to the Crenshaw/LAX files while we are work on the Crenshaw/LAX project.

I cannot promise drawings for the existing green line, but I will inquire within Metro as to the right contact person that can assist you.

FYI, we are requesting the additional architectural files for the remaining Inglewood station, Westchester/Veterans (Hindry).

Thank you,

Carlos

Subject: CAD Files Request: Inglewood Transit Connector Project

Hi Ashley,

Thank you for your time. To reiterate, my name is Perla and I am consultant to the City of Inglewood working on the Inglewood Transit Connector Project. Per our phone discussion, could you please provide the project team with CAD files containing information on (1) station platforms (2) station plaza (3) alignment itself near the rail station for the stations listed below.

Please prioritize the first two stations, Downtown Inglewood and Fairview Heights.

- (1) **Crenshaw/LAX Line:** Downtown Inglewood
- (2) **Crenshaw/LAX Line:** Fairview Heights
- (3) **Green Line:** Hawthorne/Lennox Station
- (4) **Green Line:** Crenshaw Station
- (5) **Crenshaw/LAX Line:** Westchester/Veterans Station

Have a good day,

Perla Solis
