Hello Chris,

It has been awhile since we have seen or spoken with each other. We have changed our name from BASE Architecture, to Anderson Barker Architects.

You may or may not know that we are the architect for the Inglewood Basketball Entertainment Center (IBEC) plaza buildings, parking structures and pedestrian bridge. AECOM is the architect for the arena. We also are the architects for the Hollywood Park retail and theater.

I wanted to inquire about designing the new community center. The community center was moved from the IBEC site and is to go in another location of the city. Attached are a few images of the Compton Community Center we designed several years ago to show our previous experience, for your review.

Please let me know when we could discuss this matter. I can be reached in reply to this email or at: 310-261-3419.

Thank you. I look forward to hearing from you

Regards,

Michael
