Subject: Re: IBEC Schedule question

Good morning,

For the EIR we would need the files in the morning Wednesday 9/18.

Subject: RE: IBEC Schedule question

I'm guessing the page count sits at around 1,900 pages, with some color and some 11x17, although the majority of the pages are 8.5x11 B&W.

Thanks,
Christina

Subject: RE: IBEC Schedule question

Depends on the page count, but I'll forward to Phalee and see what she says.

Phalee, What is the latest date and time we could deliver the Draft EIR to the printer if we want to receive the document in ESA's Los Angeles office by Monday, September 23 at 9:00 am? Nothing really that special, straight copies of standard EIR.

Without overtime, and then with overtime on the previous weekend.

Thanks.

Gary Gick

Subject: IBEC Schedule question

I'm reviewing our schedule (see attached, gray schedule) and a question has come up about the timing of printing of the Draft EIR document:

What is the latest date and time we could deliver the Draft EIR to the printer if we want to receive the document in ESA's Los Angeles office by Monday, September 23 at 9:00 am?

Thanks,
Christina
