Subject: IBEC: Updated fire protection and reclaimed water diagrams

Attachments: IBEC Reclaimed Water Diagram 5.14.19.pdf; IBEC Fire Protection Diagram 5.14.19.pdf

Hi, Addie,

I confirmed with D&D Engineering that pipe diameters for the lines shown on the updated wet utility diagrams are correct per the Golden State Water Company map book.

As I mentioned, we did receive very minor updates to the IBEC fire protection diagram and reclaimed water diagram (attached), with changes as follows:

Reclaimed water – practice & training facility label/size changed to match other diagrams

Fire protection – update to legend for removed lines

Dennis Kanuk
