Attachments: Figure 3.1-11 and 3.1-12 mockups.docx; Fig3.1-1_Viewpoint Location Map.pdf

Thanks!

I just want to double check. Since the Doty Avenue sign is visible in View 10, shouldn't the view marker be west of Doty? See my attached mockups I was getting ready to send to our graphics person.

Hi, Steve,

Just in case, I found the map I was looking for showing the locations. View 10 is basically from the same spot as Views 4 and 5; View 11 in front of the building to the east of the project site.

Hi Dennis,

While preparing the new figures for the Aesthetics section, I noted that the photo locations are obviously apparent when viewing the images for View 10 and 11, so, unless you want to send view locations for absolute certainty, I think I am all set.

Thanks!

Hi Dennis,

Sorry if you already sent this, but could you send an image that shows the locations/directions for views 10 and 11? A simple graphic is fine, as I will be using the information to update our existing view location figure.

Thanks!

Steve
