Subject: Permit question

Mindy,

I have a question regarding permits that is relevant to one of our noise mitigations. Can you clarify whether the term "building permit" would cover all permits including demolition, excavation, grading, etc. (as well as building itself), or does the City have other permits to which we should refer? This relates to the construction noise reduction plan mitigation that we want completed and approved by the City prior to the first permit. Is building permit the correct reference?

Thanks.

B
